

SAFETY POLICY

Mumbai International Airport (MIAL) protects its Employees, Customers and Clients from injury and illness at work by being an organization most effective at helping to make work places safer and healthier.

Not only are we committed to the provision and delivery of a safe product to all our customers, but promoting the highest standards of safety and the elimination of injury, loss or damage to equipment are fundamental to this process.

MIAL maintains safety as a top priority and provides support and training on such matters. Helping to define, establish and incorporate safety responsibility and accountability throughout every level of the company from Senior Management down creates value for MIAL, our staff and our customers. Our main aim is to create an incident-free environment and to conduct business with no adverse safety impact.

Monitoring safety quality plays an important role in protecting the health of MIAL employees, contractors and the general community.

Mumbai International Airport will derive and communicate the policy requirements with respect to all issues of safety including such things as employer and employee responsibilities, and to afford all staff safety strategies for implementation in our workplace as part of MIAL's continuous Safety Improvement Program.

Signed:

G V Sanjay Reddy, Managing Director MIAL
